Preface . .

THE publishers present to the citizens of Greensboro and the public in general their 1901 Greensboro City Directory, with the firm belief that in point of information, reliability and completeness it will give entire satisfaction and reflect credit upon the city. In the canvass for the names of the citizens we have followed the rule adopted in all other cities in which we publish, i. e., we did not stop at the city limits proper or any imaginary line, but have embraced all the territory, viz.: Pomona, Proximity, Jonesboro, Jacksonville, Warnersville, and all other territory tributary to the city. We find the nearest average number, throughout the different streets of the city, to each name occupying space in the directory to be "three" to the white population and three and one-half to the colored (the average used in nearly all cities in the South.)

We have recorded from A to Z of the general directory (both white and colored), 7,334 names. Consequently, at the average stated above, Greensboro has to-day a population (including suburbs) of 22,002.

In conclusion, we beg to return our most cordial thanks to those who have so generously given us their support, and to them we hereby dedicate this work. To the public generally who have kindly aided us in getting up the data, etc., we return our acknowledgments. To our patrons and the public in general, we promise to make each succeeding volume of their Greensboro City Directory more worthy of commendation and patronage, and will issue it as often as of actual necessity.

Respectfully,

THE PUBLISHERS.

Z STANDS for Zebra, and is the last letter of the alphabet.
A is the last letter of Zebra, and the first letter of the
alphabet. This exemplifies the old saying that the first
shall be last and the last shall be first; but you will find Gris-
som & Fordham's Popular Drug Store both at the head and
foot of his alphabet.
